## EDUCATION

### Trinity University, Yaba

Bachelor of Science in Computer Science [CGPA: 5.0/5.0]

Lagos, Nigeria

Expected (October 2025)

**Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Discrete Structures, Theory of Computation, Computer Organization & Architecture, Linear Algebra, Mathematical Methods, Database Management, Programming Languages.

## EXPERIENCE

### HNGX

Remote

Backend Engineer Intern (Finalist)

September 2023 - November 2023

- Architected & developed a robust authentication microservice for a portfolio page service (Zuri App), alongside other engineers in cross-functional teams.
- Engineered the registration feature for the Zuri App, streamlining the user onboarding process and enhancing the overall user experience.
- Engaged in code reviews of over 120 pull requests to ensure code quality, correctness and efficient solutions, significantly reducing technical debts with increased team efficiency.

### Kobo360 Logistics

Lagos, Nigeria

Frontend Engineer Intern

August 2023 - October 2023

- Played a significant role in the development of a user-friendly price estimation system for the company CRM, contributing to an increase in customer retention and a reduction in sales overhead by 48 hours
- Collaborated with a cross-functional team of software engineers and designers to implement a visually appealing user interface for the rate card CRM module leaving 100% of QA testers very satisfied.
- Worked in an organised agile process and workflow with a squad of 30+ employees using technologies like GitHub/Bitbucket, JIRA and Slack.

## SKILLS

- Programming Languages: JavaScript, TypeScript, C#, Java
- Frontend Development: React, Angular, Redux, Next.js, TailwindCSS, MaterialUI
- Backend Development: Node.js, Express, PostgreSQL, MongoDB, Prisma
- Version Control: Git/GitHub, Bitbucket

## PROJECTS

### FantasTick

Productivity App with Authentication

React | Vite | Node | Express | MongoDB | JWT

[Project Link](#)

### Study Archives

Landing Page for School Past Exam Questions Drive

React | Next.js | TailwindCSS |

[Project Link](#)

### ScholarPro

Desktop Learning Management System

C# | Visual Studio | MySQL | XAMPP

[Project Link](#)

### Lecturely

Web-based lecturer management system

Java | MySQL | XAMPP | NetBeans

## VOLUNTEER WORK

---

- **Trinity University NACOS Tech Tutorials**  
Frontend Engineering Tutor
- **NACOS Community Project - InfoHub**  
Frontend Developer

## CERTIFICATES

---

- **JavaScript Algorithms and Data Structures - FreeCodeCamp**  
[Certificate Link](#)
- **HNG Finalist - HNG Internship X**  
[Certificate Link](#)
- **Learn React Course - Scrimba.com**  
[Certificate Link](#)
- **Frontend Web Development - Terra Learning**  
[Certificate Link](#)
- **Responsive Web Development - FreeCodeCamp**  
[Certificate Link](#)
- **CD Trained Practitioner - Project Management Institute**  
[Certificate Link](#)
